

SHARK TANK

By: Felipe Barbosa Rojas

○

My purpose with this work is to reincarnate all those memories of a sport that has made so many people happy throughout history, since due to the current situation, those moments are not lived as people would like them to be lived, so Which I want to remind you of how was each of those moments that formed history and that people can understand that no matter how difficult the situation is, something can be taken out of so many events.

REFERENCENCES THAT ARE
GOING TO BE USED

MARIA TEREZA HINCAPIE

This reference makes emphasis on the part of space, since as Maria Tereza did, to make figures with different objects, I am going to take it as a basis to create a figure with my own objects related to my subject.

SERGIO ALBIAC

This reference helps me in the aesthetic part of my project since, as you can see, Sergio Alibac joins different images or texts to form something. Which in my case I am going to use this as a basis to build a word using images.

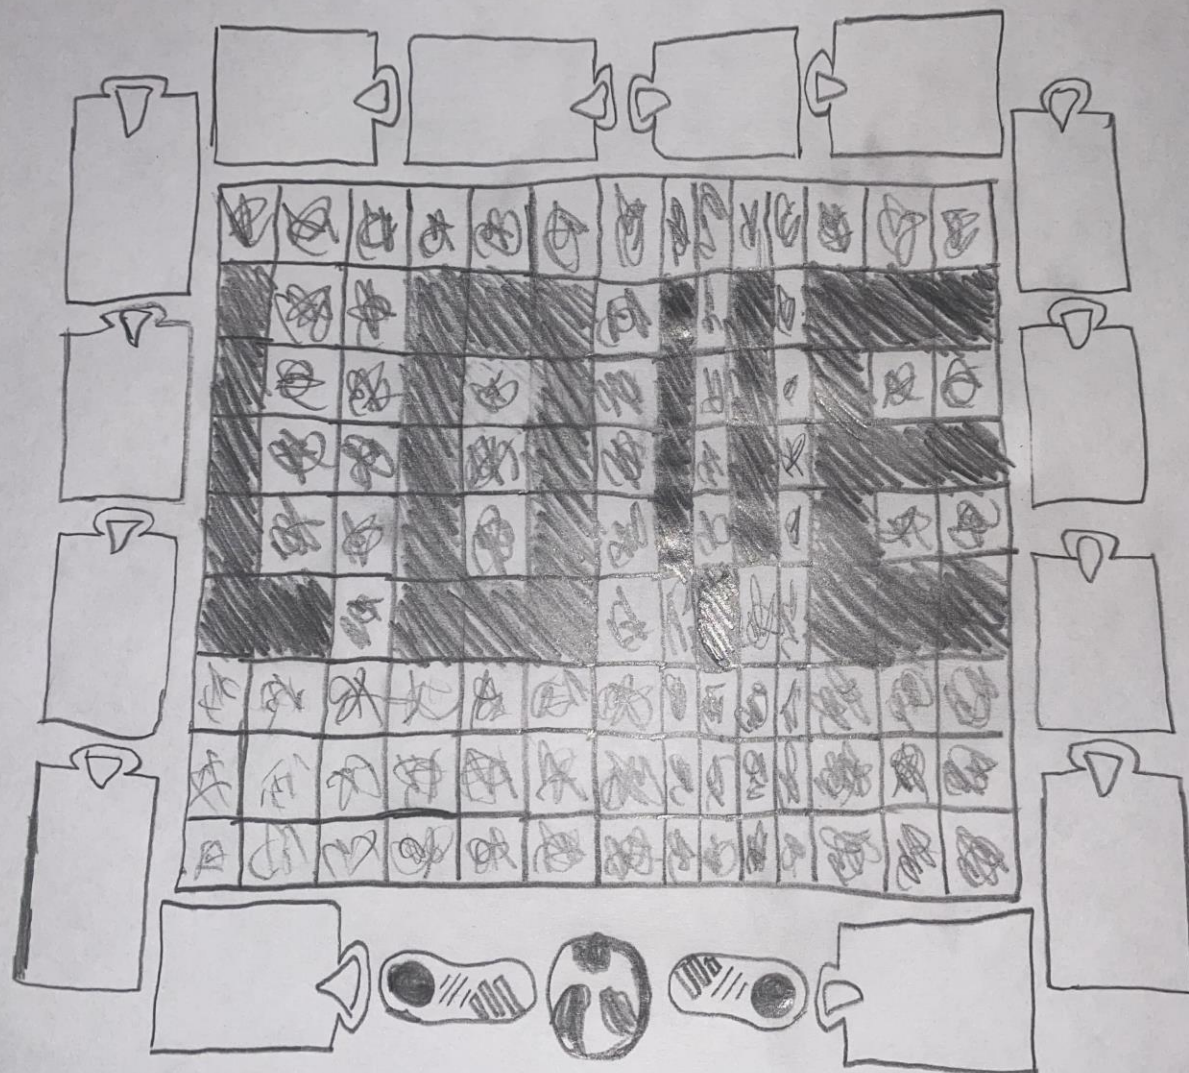

SONG BOARD: CENTRAL SAINT MARTINS

This last reference helps the symbolic part of my work since it shows how they form words by means of forms, which is what I am looking for for my project. Being able to show a message through images and objects.

EXPLAINED SKETCH

THE END

Thanks!!
